Costumes are either custom made by the costume director or designate, rented by CFSC, or purchased. All costumes **MUST** be approved by the Costume Director and Lead Artistic Director and any costume that does not meet the required design will not be allowed in show. **Initials** _____
3. I understand I am making a commitment for myself/my child to participate in NUTCRACKER ON ICE. All show participants *must attend and be on time for all rehearsals, mandatory dress rehearsal and shows* unless excused in advance by the Show Committee. Anyone who misses more than 1 absence (including sickness) will need to have their role evaluated and potentially could be removed from the show. If more than one absence occurs due to illness, a doctor's note will be required to continue in show. Continued lateness to practice could result in a lesser part (or choreography) for the skater or removal from his/her part(s). **Initials** _____

6. The Columbia Figure Skating Club (CFSC) is committed to creating a safe and positive environment for its members' physical, emotional, and social development, and ensuring that it promotes an environment free of misconduct. CFSC complies with USFS SkateSafe recommendations and guidelines for athlete protection as set forth in the USFS SkateSafe Handbook. As part of this compliance, CFSC requires that all individuals involved in the production of the **Nutcracker on Ice** agree to adhere to: the USFS Member Code of Conduct; the applicable CFSC Code of Conduct governing skaters, parents/guardians, and coaches; CFSC's Locker Room Policy; and CFSC's Ice Rules. **Initials** _____

7. As part of its compliance with USFS SkateSafe recommendations and guidelines for athlete protection, CFSC requires a minimum of 1 Locker Room Monitor per locker room for dress rehearsal and show (under the direction of CFSC's SkateSafe Compliance Chair and the Show Committee) to ensure the safety of skaters using locker rooms for costume changes. If CFSC fails to attain this minimum number of locker room monitors, I understand the skaters assigned to the locker rooms will have to evacuate. **Initials** _____

8. Parents are encouraged to take the "Parents Guide to Misconduct in Sport" at www.athletesafety.org. With changes to the Safe Sport (Safe Skate) program and the commitment we all share for children, education and awareness are essential to support efforts to keep skaters safe and promote a positive environment.

Rehearsal-Meeting Schedule

We have 8 weeks of rehearsal time; skaters may only miss 1 rehearsal before their role could be re-evaluated. Missing more than one rehearsal puts your skater at a disadvantage and is unfair to the other skaters in their group. Please review the schedule, academic calendars, and any other weekend activities before committing you and your skater.

Additional Skills Needed

The Costume Director(s) and Props/Scenery Coordinator(s) would like to expand their pool of parents able to help in these areas. If you have any of the skills below or have a friend or family member who has reasonable pricing, please indicate below. Often sets, props, costumes, etc. have inspiration pictures only, hence the ability to deconstruct concept, work with a verbal "vision" and reproduce so that it is skater, ice and budget friendly* is a must.

_____ Painting – able to look at an inspiration picture and reproduce

_____ Sewing – able to sew from a picture or with some guidance, patterns are infrequently used but guidance on designing one might be available

_____ Headpieces/jewelry – able to construct skater safe and durable pieces, guidance or inspiration picture usually given but creative suggestions welcome

_____ Metal working – able to solder or weld to make props or set pieces

_____ Wood working – ability to construct sturdy, ice safe props or set pieces

_____ Other crafting – paper-mache or other crafting skills used in constructing oversized props, ability to work off an inspiration picture or verbal "vision" briefing

_____ Other, please specify any skills that would be of benefit _____

*Skater-friendly – props, headpieces or costume pieces that can withstand speed and movement without pieces falling off or integrity being compromised. Props must have durability since they are often moved and tossed quickly during scene or costume changes.

*Ice –friendly – props or set pieces that are scaled larger than normal (for ease in viewing from a distance) can move easily on and off the ice and have the durability to withstand handling by skaters and/or movement from backstage crew

*Budget-friendly – the vision to use ordinary or inexpensive objects to create props, set pieces, etc., production budget is limited
